

Transition to Marriage Study – FINAL Follow-Up Survey #5

Please complete the survey on your own.

Do not discuss the survey with your partner until both of you have already completed it
(if you discuss it at all).

This survey is similar in length to the initial intake survey you completed two years ago, which captured baseline measures of various relationship qualities and personality traits. Answering these questions again will allow us to identify trends and changes in romantic relationships over time. This survey will take 30-40 minutes.

When you are ready to begin, please click on the arrow below.

[SES questions are new]

Perceived SES (Adler et al., 2000)

Ladder Think of this ladder as representing where people stand in our society.

At the top of the ladder are the people who are the best off - those who have the most money, the most education, and the most respected jobs. At the bottom are people who are the worst off - they have the least money, least education, and the least respected jobs or no job. The higher up you are on this ladder, the closer you are to the people at the very top; the lower you are, the closer you are to the people at the very bottom.

SES Where would you place yourself on this ladder? This will represent where you think you stand at this time in your life, relative to other people.

(1) TWST for self and partner (Rick, Cryder, & Loewenstein, 2008)

TWST1 Some people have trouble limiting their spending: they often spend money -- for example on clothes, meals, vacations -- when they would do better not to. Other people have trouble spending money. Perhaps because spending money makes them anxious, they often don't spend money on things they should spend it on. How well does the first description fit you? That is, do you have trouble limiting your spending?

- ☐ Never (1)
- ☐ Rarely (2)
- ☐ Sometimes (3)
- ☐ Often (4)
- ☐ Always (5)

TWST2 How well does the second description fit you? That is, do you have trouble spending money?

- ☐ Never (1)
- ☐ Rarely (2)
- ☐ Sometimes (3)
- ☐ Often (4)
- ☐ Always (5)

TWST3 Following is a scenario describing the behavior of two shoppers. After reading about each shopper, please answer the question that follows. Mr. A is accompanying a good friend who is on a shopping spree at a local mall. When they enter a large department store, Mr. A sees that the store has a "one-day-only-sale" where everything is priced 10-60% off. He realizes he doesn't need anything, yet can't resist and ends up spending almost \$100 on stuff. Mr. B is accompanying a good friend who is on a shopping spree at a local mall. When they enter a large department store, Mr. B sees that the store has a "one-day-only-sale" where everything is priced 10-60% off. He figures he can get great deals on many items that he needs, yet the thought of spending the money keeps him from buying the stuff. In terms of your own behavior, who are you more similar to, Mr. A or Mr. B?

- ☐ 2 (2)
- ☐ About the same or neither3 (3)
