

Screening

Thank you for deciding to participate in this survey! Please read the questions on the screen carefully, and answer them honestly. There are no right or wrong answers, we are simply interested in your opinion. We thank you in advance for your honest and thoughtful responses.

Please click anywhere on this page at least five times. The number of times you click will be recorded automatically, even if you do not see any change on this page. This is an attention check. Failing this attention check will result in rejecting your hit. Thank you.

Attention check not passed.

If you see this note, it means that you failed the attention check presented on the previous page, which read:

"Please click anywhere on this page at least five times. The number of times you click will be recorded automatically, even if you do not see any change on this page. This is an attention check. Failing this attention check will result in rejecting your hit. Thank you."

If you submit this HIT, the HIT will be rejected.

Intro

In this study, we will ask your opinion about a robo-advisor. Robo-advisors are algorithms that build and manage investment portfolios. Specifically, when you invest with a robo-advisor, your money is invested in different investment opportunities, including stocks, bonds, and commodities. Over time, they make decisions about what types of investments should or should not be in their portfolio of investments. **How your money is**

managed depends on the specific robo-advisor being used.

This study is about a specific robot-advisor called DRX1.

Prospect of Ex-Ante Explanation

An explanation of how DRX1 works is available on the website of the company that developed the algorithm (drx1ai.us). Anybody can access an explanation of how the algorithm works. You can review an explanation of how the DRX1 algorithms manage your investments by visiting the website of the company that developed the algorithms.

An explanation of how DRX1 works is available on the website of the company that developed the algorithm

(drxlai.us). Anybody can access an explanation of how the algorithm works. You can review an explanation of how the DRX1 algorithms manage your investments by visiting the website of the company that developed the algorithms.

How well do you understand how the DRX1 works?

Do not understand at all Understand completely

☐ ☐ ☐ ☐ ☐ ☐ ☐

How likely would you be to use the DRX1?

Not at all Very much

☐ ☐ ☐ ☐ ☐ ☐ ☐

Prospect of Ex-Post Explanation

An explanation of how the DRX1 works is available upon request from the company that developed the algorithm. To receive an explanation of how the algorithm works, you must send an email to the company that developed the

algorithm (info@drxlai.us). You can receive an explanation of how the algorithm manage your investments only after you become a client and the DRX1 algorithm starts making transactions. This means that while you can access an explanation for how the algorithm works, you cannot do it right now.
