

Intro

Thank you for deciding to participate in this survey! Please read the questions on the screen carefully and answer them honestly. There are no right or wrong answers, we are simply interested in your opinion. We thank you in advance for your honest and thoughtful responses.

Attention_Check

Please click at least five times (more is fine too) anywhere on this text before moving on to the next page. The number of clicks will be registered automatically even if you do not see any change on this page. This is an attention check. Failing this attention check will result in rejecting your HIT. Thank you.

Attention check not passed.

If you see this note, it means that you failed the attention check presented on the previous page, which read:

"Please click anywhere on this page at least five times. The number of times you click will be recorded automatically, even if you do not see any change on this page. This is an attention check. Failing this attention check will result in rejecting your hit. Thank you."

If you submit this HIT, the HIT will be rejected.

Intro

In this study, we would like to talk about credit scores, which are the numbers that

lenders use to determine whether they should offer credit to a person and what interest rate that person qualifies for.

In particular, we would like to ask you some questions about the **VantageScore algorithm**, which is one of the most popular algorithms used to compute a person's credit score.

Control

How well do you understand how the VantageScore algorithm works?

Do not
understand at
all

Understand
completely

Explanation_Prospect

A clear [description](#) of how the VantageScore algorithm computes a person's credit score has been made available to anybody interested in understanding how this algorithm works.
